

Facts about me

This is my first time running to bring accountability to City Hall.

I have lived in North Vancouver for 57 years.

I am a UBC electrical engineer, hotelier, real estate developer, and global entrepreneur ready to secure a landslide victory.

Elect Graham Alexander

RUNNING FOR **MAYOR** IN THE **DISTRICT OF NORTH VANCOUVER**

Q What made you decide to stand in this election?

A Running to overcome obstacles, clean house, and deliver true justice for District of North Vancouver taxpayers who are being forced to shoulder the greatest financial fiasco in British Columbia's history—the runaway costs of the North Shore Wastewater Treatment Plant. This catastrophic rip-off has been highlighted across major media reporting, leaving residents facing exorbitant tax burdens and unfair utility bills. I am stepping up to demand independent forensic accountants and full financial compensation from federal and provincial authorities so local families are never left holding the bag for this municipal scam. With my proven global experience building enterprises across 563 cities with StayRunners and my background as a UBC electrical engineer, ready to overhaul City Hall management, cut administrative waste, and secure a landslide victory for North Vancouver. Visit grahamgalexander.ca for our complete platform.

Q What major issues do you think have to be addressed in the next four years?

A We must immediately address the WWTF financial disaster by demanding senior government accountability, taxpayer compensation, and forensic audits so residents stop paying for this rip-off. Furthermore, we must strictly protect our cherished, established neighborhoods like Edgemont, Grousewoods, and Lynn Valley by keeping them completely free from inappropriate high-density sprawl and preventing any forced injection sites near our families, children, and daycares. All necessary high-density growth and modern infrastructure must be focused exclusively in the Lynn Creek area. There, we will spearhead a transformative \$4 billion private investment partnership—backed by my extensive network of global business magnates—seeking matching senior government funds to build a vital new bridge and

SkyTrain connection. This cuts municipal waste, solves traffic gridlock, and protects our community.

Q What areas of specific expertise will you bring to this council/school district?

A I bring rigorous UBC electrical engineering expertise, decades of hands-on infrastructure and real estate development experience from engineering major residential projects like Mount Thurston Drive and Mount Archibald Place in Chilliwack, and robust global executive leadership as founder of StayRunners operating across 97 countries and 563 cities worldwide. I apply a disciplined, data-driven approach to streamline municipal operations, attract heavy-hitting private capital, slash bureaucratic red tape, and ensure public projects are executed with absolute efficiency. My background equips me to navigate complex financial challenges, eliminate administrative bloat, partner with titans like Seaspan's founder Kyle Washington, and deliver total accountability to DNV taxpayers.

Q What will you do differently than the current elected officials?

A Unlike current officials who have overseen staggering budget overruns and administrative secrecy, I will relentlessly demand federal and provincial forensic audits and full financial compensation for the WWTF financial fiasco and scam. I will protect established single-family neighborhoods in Edgemont, Grousewoods, and Lynn Valley from unwanted high-density overreach, firmly reject forced injection sites, and concentrate smart growth efficiently in Lynn Creek. By replacing bureaucratic delay with decisive leadership, leveraging \$4 billion in private capital, and championing the hardworking taxpayer, I will deliver absolute transparency, fiscal responsibility, and a historic landslide victory.

I want to be known for:

The leader who overcame all obstacles, demanded justice and compensation for taxpayers, preserved our neighborhoods, and delivered a landslide victory for North Vancouver.
